

Thomas Reid

New Jersey | treid1409@gmail.com | <https://treid99.github.io/portfolio/>

Skills

Programming Languages: TypeScript, JavaScript, Java, Python, HTML/CSS

Developer Tools: VSCode, AWS CodeCommit, GitHub, Snowflake, Grafana, Postman, ClaudeCode

Frameworks: Playwright, Cypress, Mocha

Workflow Apps: Linear, Jira, Confluence, TestRail, Excel

Device Management: Remote Desktop Manager, Apple School Manager, Jamf School, Active Directory, Azure AD

Concepts: Software Engineering, Test Strategy, Automation, Multi-Agent Orchestration, Data Analysis, Customer Support

Experience

Test Engineer (IC2), ClassLink Inc. – Clifton, NJ

Dec 2025 – Present

- Transformed the QA workflow into an automation-focused testing strategy by leveraging AI tooling to accelerate test creation, maintenance, and release validation across the rapidly evolving development ecosystem.
- Built, maintained, and executed end-to-end tests in Playwright, vastly expanding automated test coverage while supporting increased engineering output.
- Created AI-assisted QA workflows using Claude multi-agent orchestration, custom skills, and MCP integrations to automate requirement analysis, test generation, execution, and reporting.
- Accelerated and improved bug investigations and root-cause analysis by precisely identifying defects within source code and delivering detailed, actionable reports.

Quality Assurance Analyst, ClassLink Inc. – Clifton, NJ

Nov 2021 – Dec 2025

- Performed manual QA testing across the full suite of ClassLink Analytics products, including feature validation, regression testing, and post-release sanity testing covering all front-end and back-end systems.
- Developed and maintained automated end-to-end test coverage using Cypress.
- Authored and managed over 4,000 test cases, tailored test plans for bi-weekly releases, documented over 400 defects, and prevented hundreds more from reaching production.
- Supported a long-term full stack overhaul including a UI redesign, database migration, and several new product launches while ensuring a consistently high-quality user experience and data accuracy.

Product Support Specialist (Tier 2), ClassLink Inc. – Clifton, NJ

Aug 2020 – Nov 2021

- Provided Tier 2 technical support to school districts and IT administrators for issues related to rostering, account provisioning, authentication, analytics, admin configuration, and data imports/exports.
- Configured and troubleshoot SSO integrations connecting to external ed-tech vendors using SAML, LTI, and OAuth2 protocols, and custom automated scripts for seamless access.
- Resolved complex technical issues in collaboration with onboarding and engineering teams, and led client-facing troubleshooting sessions with district administrators and third-party vendors.

Certifications

Certified Software Test Professional (Associate), International Institute of Software Testing

June 2023

Education

Bachelor of Science in Computer Science, Rowan University – Glassboro, NJ

May 2021

- Coursework:** Data Structures & Algorithms, Operating Systems, Algorithm Design and Analysis, Cybersecurity.
- Extracurricular:** NCAA DIII Football
